### DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: Claims 1-49 are allowed.

Claims 1,21,38,44: Prior art of record does not teach a video source application requesting from a video hardware interface status with respect to a link linking video source device to an external video sink device, supplementing status request with a first basis value to a symmetric ciphering/deciphering process; video source application receiving from video hardware interface requested status and a verification key, generated through symmetric ciphering/deciphering process employing first basis value.

Claims 2-14,22-32,39-40,45-46 are allowed because of dependency.

Claims 15,33,41,47: Prior art of record does not teach a video source application requesting from a video hardware interface a secret employed by video hardware interface to cipher video to be transmitted by video hardware interface to an external video sink device, and supplementing secret request with a basis value to a symmetric ciphering/deciphering process between video source application and video hardware interface; video source application receiving from video hardware interface requested secret in a ciphered form, having been ciphered using a ciphering key generated using symmetric ciphering/deciphering process and employing basis value.

Claims 16-20,34-37,42-43,48-49 are allowed because of dependency.

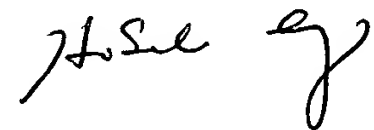

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
